Location of the EECI course

The university of Seville is proud to host three EECI courses for 2023. The location of the course will be at the Escuela Técnica Superior de los Ingenieros in Cartuja Island, which is located in the North of the city with respect to the city center. The building where the courses will take place was one of the construction made for the Universal Exposition in 1992.

Google maps link : https://goo.gl/maps/S5VUMZjosaVemdwp7

To reach the lecture hall, two maps of ETSI are given next. “Planta baja” is the ground floor, one typically enters the building close to the cafeteria. Then, go to the elevators in the South corners (marked in blue) to reach the second floor (“Planta Atico” or attic floor). This floor can also be reached by way of the stairs in the corners, but NOT through elevators or stairs in the north corners.
Once in the attic floor, go to “Sala de reuniones” (marked in blue in the plan of the attic floor). Note there is also a cafeteria.
Restrooms are located in the corners, alternating genders in the different floors.

How to reach Seville:

By Plane: Seville has an international airport (Seville-San Pablo Airport, https://www.sevilla-airport.com/en/)
The taxi to travel from the airport to the city downtown and from downtown to the airport is about 28€.
There is also a regular bus from the airport to several stations in Seville. The service operates every day of the year, from 5.22 am to 01.00 pm (destination to Seville city) and from 4.30 am to 00.11 pm (destination to the airport). It costs 4€ one way and 6€ the round trip.
(https://www.aeropuerto-sevilla.com/seville-airport/transportation/seville-airport-bus.php)

By train: main train station (Sevilla-Santa Justa) with a high-speed train (AVE) connection with Madrid in less than 2.5 hours, as well as many other important cities in Spain. (https://visitasevilla.es/en/more-see/train-station-santa-justa)

Hotels in Seville

Seville is one of the most touristic cities in Spain and in Europe. It has many hotels, bars and restaurants where you can enjoy local and typical tapas and more sophisticated dishes.

There are two hotels in Cartuja (Hotel Exe Isla Cartuja and Barceló Renacimiento), which are walking distance (5-10 minutes) to the venue, but NOT recommended (particularly the first one), since this part of town is a bit isolated from the city center and can get lonely at the night.

Some recommended hotels (which require public transportation or a long but nice walk of about ½ hour) are:

-Sevilla Macarena
-NH Sevilla Plaza de Armas
-Ribera de Triana

Dining in Seville

Again, Seville offers a large variety of restaurants, with reasonable prices.

How to reach the lectures from downtown

The Escuela Tecnica Superior de los Ingenieros is accessible from the city center by:

- bus : Line C2 or C1. It costs about 1€ per trip or 0.70€ if you ask for the Tussam card (free) available in the hotels or in shops.
- Rent bikes or electric scooters: Several stations for renting bikes and electric scooters are available almost everywhere in the city.

The city of Seville

Seville is the 2000-year-old artistic, cultural, and financial capital of Andalusia in southern Spain, with a municipal population of 703,000 Sevillan@s, making it the fourth-largest city in Spain. The city is unique for its Andalusian culture, with historical and artistic richness, flamenco music and dances, lovely weather and tasty gastronomy.
Its Old Town, the third largest in Europe with an area of 4 square kilometers, contains three UNESCOWorld Heritage Sites: the Alcázar palace complex, the Cathedral (with Cristopher Columbus buried inside) and the General Archive of the Indies. The city also features the largest wooden structure in the world, Metropol Parasol.

University of Seville

The University of Seville is one of the oldest in Spain, with more than five centuries of history. Founded in 1505, it has a student body of over 65,000, and is one of the top-ranked universities in the country.
